

phxApp Skills Documentation

Instructions: Demonstrate the following using the Quick-Start Guide and phxApp section of the phx42 User Manual. These materials can be accessed at LDARtools.com > Support > Knowledge Base > phxApp. Initial each item, and sign and date upon completion.

Documentation remains on-site.

Required tools: phx42, Android 5+ handheld, phxApp, and a Wi-Fi connection.

	Task	Initial
1.	Where do you get the phxApp?	
2.	When should you enable GPS location services on the phxApp?	
3.	Describe what "Initializing" means.	
4.	Explain the values on Home Screen.	
5.	What does a negative PPM reading mean?	
6.	Do a self-Check.	
7.	Demonstrate Calibration of Filter Detection	
8.	Understand when and how to submit an issue.	
9.	Describe when comments are required when reporting an issue.	
10.	Describe what a helpful comment should include.	
11.	How long should you apply the gas if you are using on-demand regulators?
